# My Own site – Static website

[www.bluewebnodes.com](http://www.bluewebnodes.com)

Created with Jekyll and customized with HTML, CSS, and Javascript to modern design. Blog with comments and an automatic index menu. Jekyll is a static site generator perfect for GitHub-hosted blogs. Free hosting on GitHub, so be it.

# Informational Website Example

[www.thearcjslc.org](http://www.thearcjslc.org)

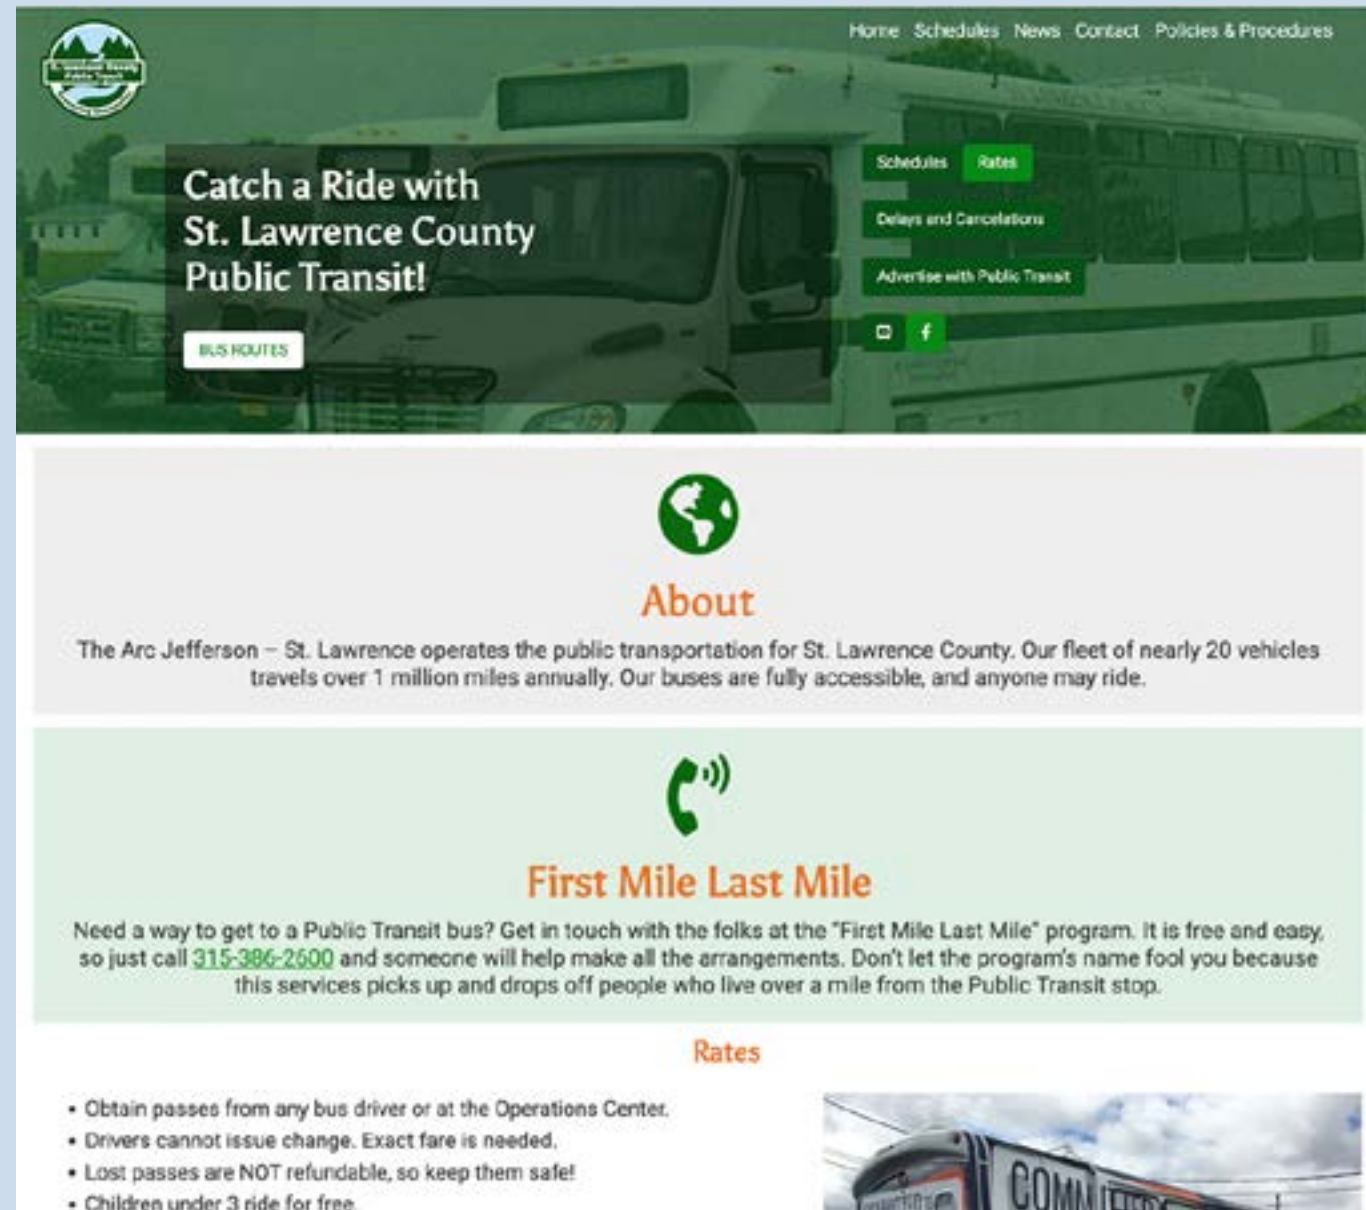

The site was created and developed on Drupal 9 with a custom sub-theme of the Barrio Bootstrap 5 base theme, and updated to Drupal 10. More regions are added in the sub-theme to make the layouts more flexible. Lots of features: Responsive design, Google Analytics, Meta tags for improving SEO, drop-down main menu, full-screen wide slideshow, varied big front banners with fancy CSS styles, three columns or two columns promo blocks on the front, HTML Email Newsletters, calendar with different color for event catalogs, upcoming events, image gallery, spam-off contact form, voting web-forms, on-line flipbook, Facebook page plug-in, horizontal scroll bar, etc.

# Informational Website Example

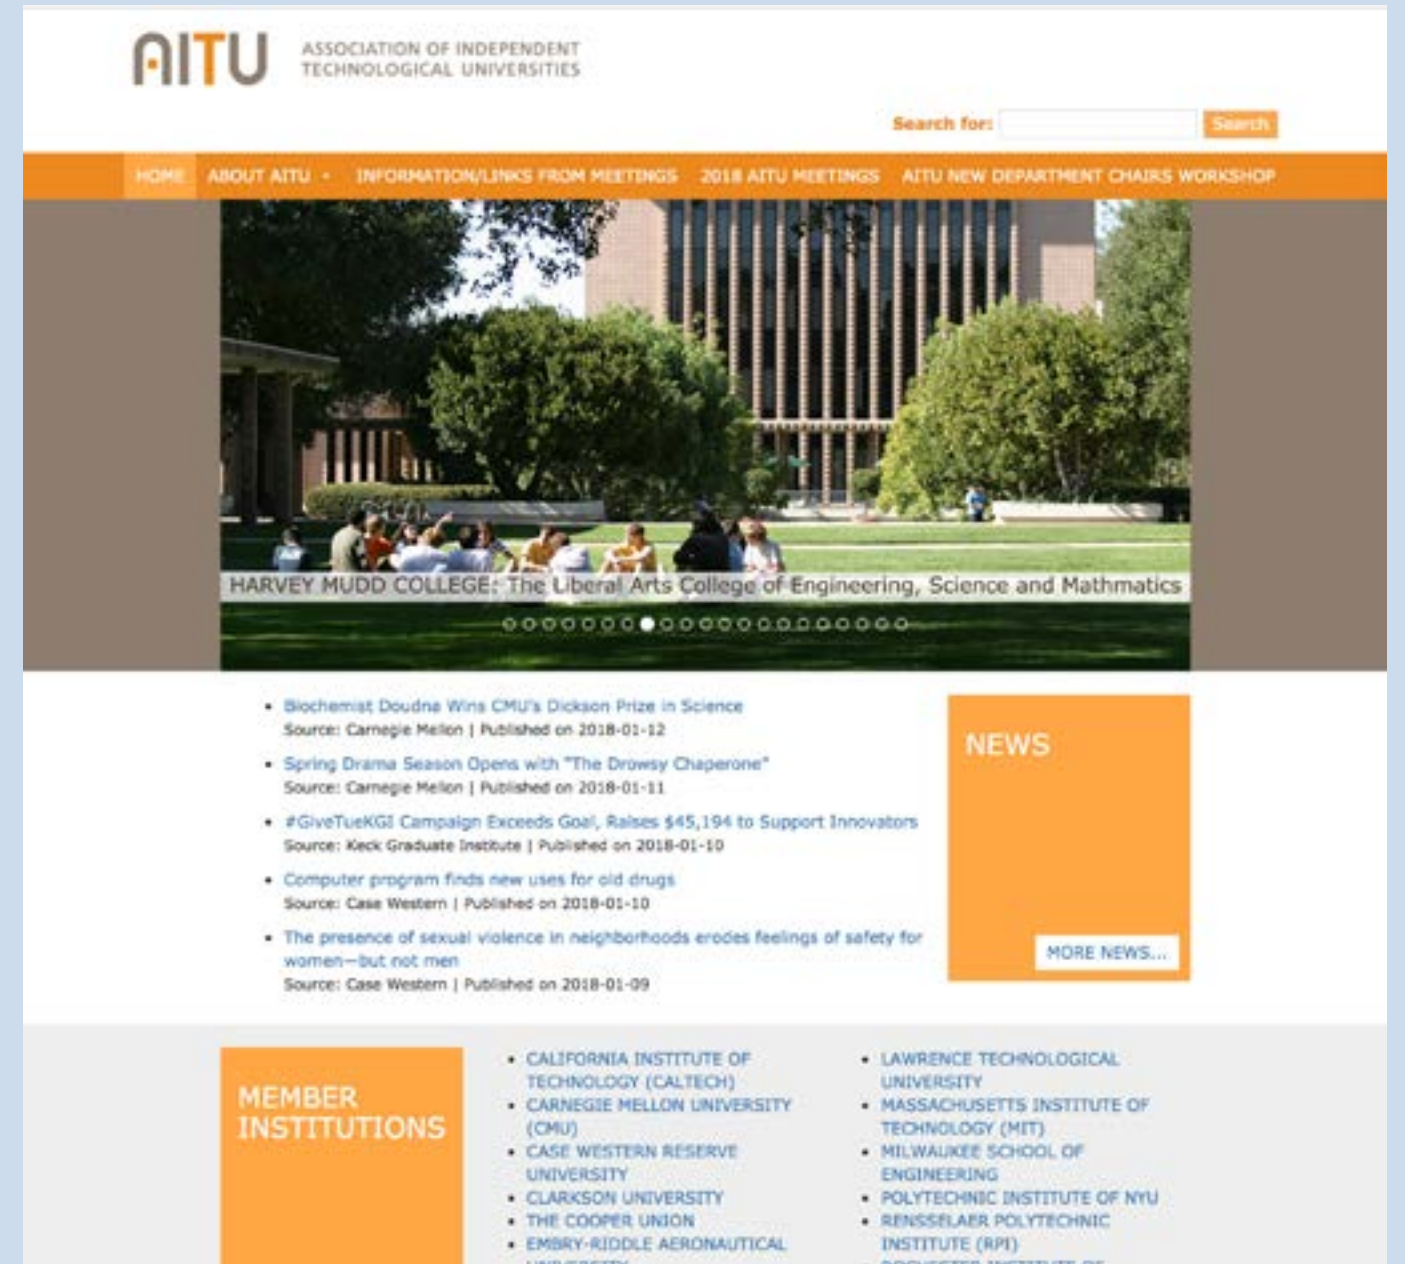

[www.slcnypublictransit.com](http://www.slcnypublictransit.com)

The site was built with Drupal 9 and a custom sub-theme of Barrio Bootstrap 4 base theme. The company logo and main menu are on the big top background. Different web pages have different titles but the same secondary menu on the different background images. The features include responsive design, Google analytics, Meta tags for improving SEO, HTML email newsletters, spam-off contact webform, Facebook page plug-in, Awesome Font icons, directly downloaded PDFs, etc.

# Informational Website Example

<https://theaitu.com>

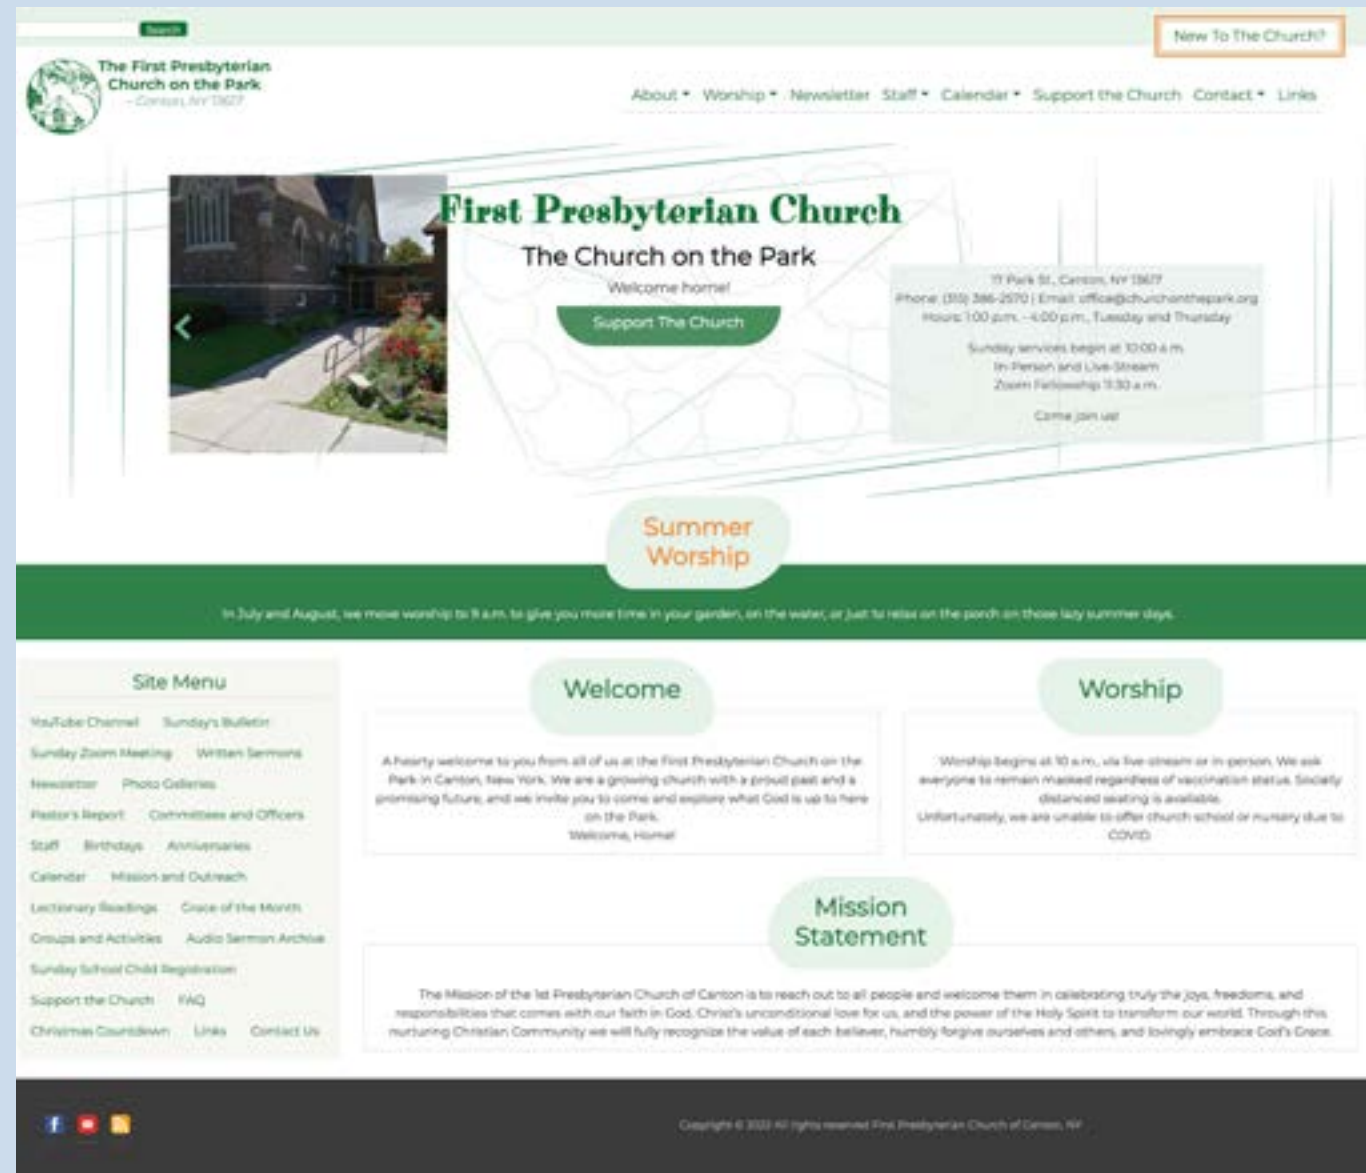

The website is for the Association of Independent Technological Universities. I built a WordPress custom theme using Bootstrap 4, PHP, HTML, and CSS. The slideshow was built in the custom theme. News feeds from all the university members.

Lots of features: Responsive design, drop-down main menu, custom size slideshow, HTML Email Newsletters, calendar with different colors for event catalogs, image gallery, count-down event, spam-off contact form, etc.

# E-Commerce Website Example

[www.w8-time.com](http://www.w8-time.com)

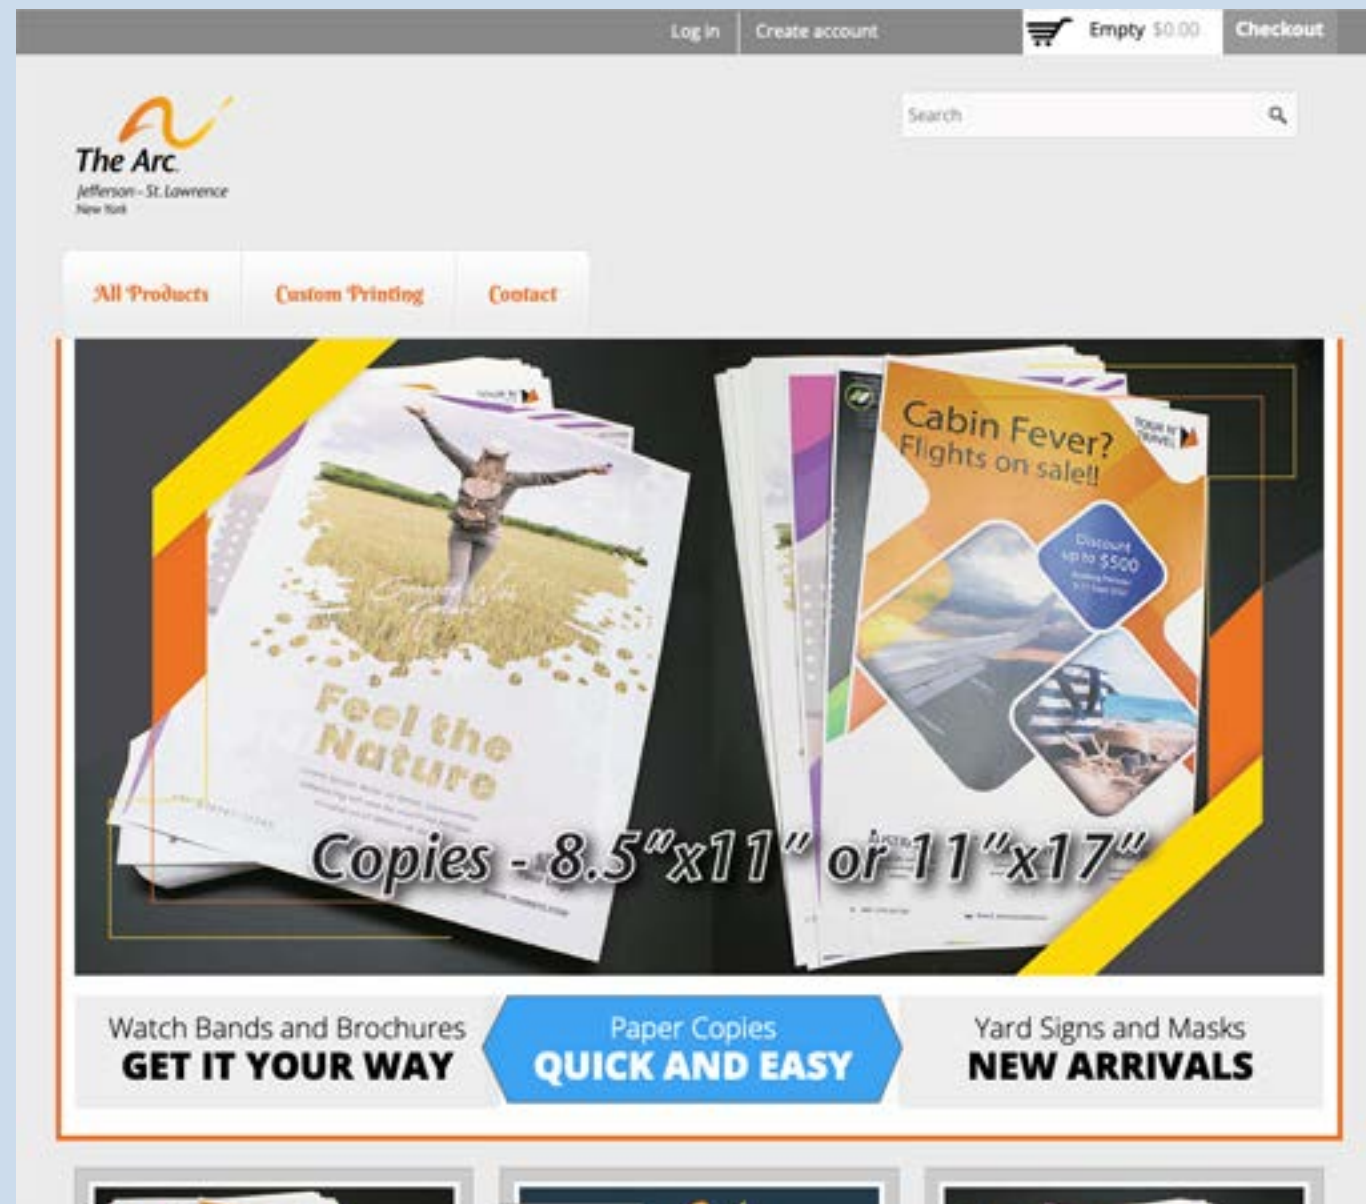

The W8 website is an eCommerce website for restaurant reservations built with WordPress and WooCommerce. The customers visit the restaurant waitlist page by scanning the QR code. They can fill out the form to join the regular waitlist or purchase a FastPass to go faster. The features include QR code, webforms, front-end table, shipping cart, credit card payment gateway, SMS and email notifications, etc.

# E-Commerce Website Example

(The online store paused because of a shortage of workers.)

The custom Printing website was built with Drupal Commerce. I created the website [www.shopthearcjslc.org](http://www.shopthearcjslc.org) all by myself, even the draft of policies. I learned to make an eCommerce site as a PCI Compliance for Credit Card Payment Security. More features are a full-featured online store system, a customer membership system, and an email notification system.

### What's Your Parent's Role?

Screening eligibility, the child must have two or more chronic conditions, such as but not limited to:

- Asthma or substance abuse
- Mental health condition
- Cardiovascular disease (e.g. diabetes)
- Respiratory disease (e.g. tuberculosis)
- Eating disorders
- Cystic fibrosis

### Benefits of the Healthy Home

It's not surprising if you stop and think about it for a moment.

It is very difficult to navigate through the many signs of services that may be available to your child.

Until now, you may have had extensive difficulty getting access to the services your child needs or you may have had a hard time getting appointments.

You might know what to expect from various providers and may be hesitant to call the various providers in order to better understand your child's condition.

If you're not a clinic with your child or child's condition and have not had someone to call for assistance, you may have someone who is able to connect you to the support services.

The following chronic conditions apply:

- IAC/ABSL
- Complex Illness
- SED (Severe emotional disturbance)

For a complete list of conditions, visit [www.health.ny.gov](http://www.health.ny.gov)

If your child meets the eligibility criteria, and is enrolled in case management services, they can be enrolled into the Healthy Home Program.

### What is a Healthy Home?

A "Healthy Home" is not a place. It is a group of health care and service providers working together to make sure that the child gets the care and services they need to stay healthy – at the right time in the right amount.

### What is the Healthy Home Goal?

The goal of the Healthy Home is to make sure children and adults who have complex physical and/or behavioral health conditions get access to the care and services they need in order to stay healthy.

The Healthy Home partners with other children's service agencies that provide Case Management to enrolled children.

A dedicated Case Manager is assigned to the child and is responsible for coordinating all of their health services.

The Case Manager can help the child and family understand their chronic condition, arrange their care, and arrange all involved services, which includes with the Health Care.

### Healthy Home of Life, Management can't End!

## Office for People with Developmental Disabilities Eligibility

To be eligible for services, one must have a lifelong disability which occurred before the age of 22 and of which includes diagnoses such as intellectual disabilities and other neurological conditions.

**Fiscal Intermediary**

The diagram shows a flow from **Individual's Family** (Acting as Managing Employer as the Sole Supervisor) to a **Co-Manager** (Employer of Record) to the **Individual**.

**Self-Direction**

Individuals and family units are eligible for (IFAPIC) services and awarded in The Home and Community Based Services. Home may choose to Self-Direct their services.

Self-Direction assists people with intellectual or developmental disabilities and their families to choose and manage their own goals, and services.

- Offers people supported greater choice and control over the supports they receive
- Expands their options beyond traditional programs to include services:
  - Modifications for software, internet, cell phones
  - Community classes or training
  - Gym memberships
  - Caring

Individuals in Self-Direction may choose:

- An agency to help them with their work
- To manage their employment and staff with help from a fiscal intermediary and Support Services

The fiscal intermediary provides a multitude of supports, including:

- Providing a consultant/financial person with expertise to assist with required training to staff, payroll and benefits (where applicable)
- Providing recommendations based upon the Individual's plan budget

The fiscal intermediary is also responsible to collect and review all required paperwork and documentation to ensure compliance with Medicaid (IFAPIC) payments.

**Brokerage Services**

Support Brokers assist people with developmental disabilities who cannot be self-directed from within their state with finding supports, to develop a service plan and manage a Self-Direction budget.

Self-Direction gives individuals direct responsibility in managing their supports and services. People who participate in Self-Direction may call for and manage their own staff supports and/or hire the supports and services they want and have the funding placed in their support and services account.
