**What is a Health Home?**

A "Health Home" is not a place. It is a group of health care and service providers working together to make sure that the child gets the care and services they need to stay healthy—at the right time in the right amounts.

**What is the Health Home Goal?**

The goal of the Health Home is to make sure children with Medicaid who have complex physical and/or behavioral health conditions get access to the care and services they need in order to be healthy.

**Health Home partners with other children's service agencies that provide Care Management to enrolled children.**

**A dedicated Care Manager is assigned to the child and is responsible for coordinating all of their health services.**

**The Care Manager can help the child and family understand their chronic condition, manage their symptoms and ensure all treatment partners remain involved with the child's care.**
