Home Acupuncture Medical Massage Pilates Payments About Testimonials Contact

Natural medicine refers to a broad range of healing practices that are based on natural methods and substances. It encompasses various therapies and treatments that aim to promote health, prevent illness, and facilitate the body's natural healing processes.

As integrative parts of traditional Chinese medicine (TCM), acupuncture, medical massage (Tui Na), and pilates are three natural medicine that have long been deemed effective in treating patients with muscle and soft tissue related pains. Given the ongoing opioid crisis in the United States, more and more health plans are covering these services. For instance, Medicare started covering acupuncture for low back pain in 2020 after extensive review of its treatment effect.

[Acupuncture](#) has been used to address a wide range of health conditions and is often sought for pain management, such as chronic pain, headaches, and musculoskeletal disorders. It is also used for various other health concerns, including stress reduction, digestive disorders, fertility support, respiratory issues, and emotional well-being.

[Medical massage](#) is effective in managing muscle pain, and it is different from SPA massage in targeting specific muscle issues. Medical massage (Tui Na) has been used for illness management and maintaining well-being for a long time.

[Pilates](#) focuses on precise movements, controlled breathing, and muscle engagement to improve posture, strength, flexibility, and body awareness.

[Our clinic](#) specializes in modern acupuncture and medical massage. We take pride in our service, and you can find out why from our [clients' testimonials](#). If you or anyone you know need help in pain management, please feel free to [contact us](#).

- Expands their options beyond traditional programs to include services:
 - Reimbursements for software, internet, or cell phones
 - Community classes or training
 - Gym memberships
 - Camps

Individuals in Self-Direction may choose:

- An agency to help them self-direct
- To manage their own budget and staff with help from a Fiscal Intermediary and Support Broker

Fiscal Intermediary

Brokerage Services

The Fiscal Intermediary provides a multitude of supports, including:

- Providing a compliant hiring process with requisite background checks, training to staff, payroll and benefits (when applicable)
- Providing reimbursements based upon the individualized plan/budget

The Fiscal Intermediary is also responsible to collect and review all required paperwork and documentation to ensure compliance with Medicaid/OPWDD payments.

Self-Direction

Support Brokers assist people with developmental disabilities who choose to self-direct their OPWDD services with Budget Authority to develop a service plan and manage a Self-Direction budget.
