E-Commerce Website Example

www.w8-time.com

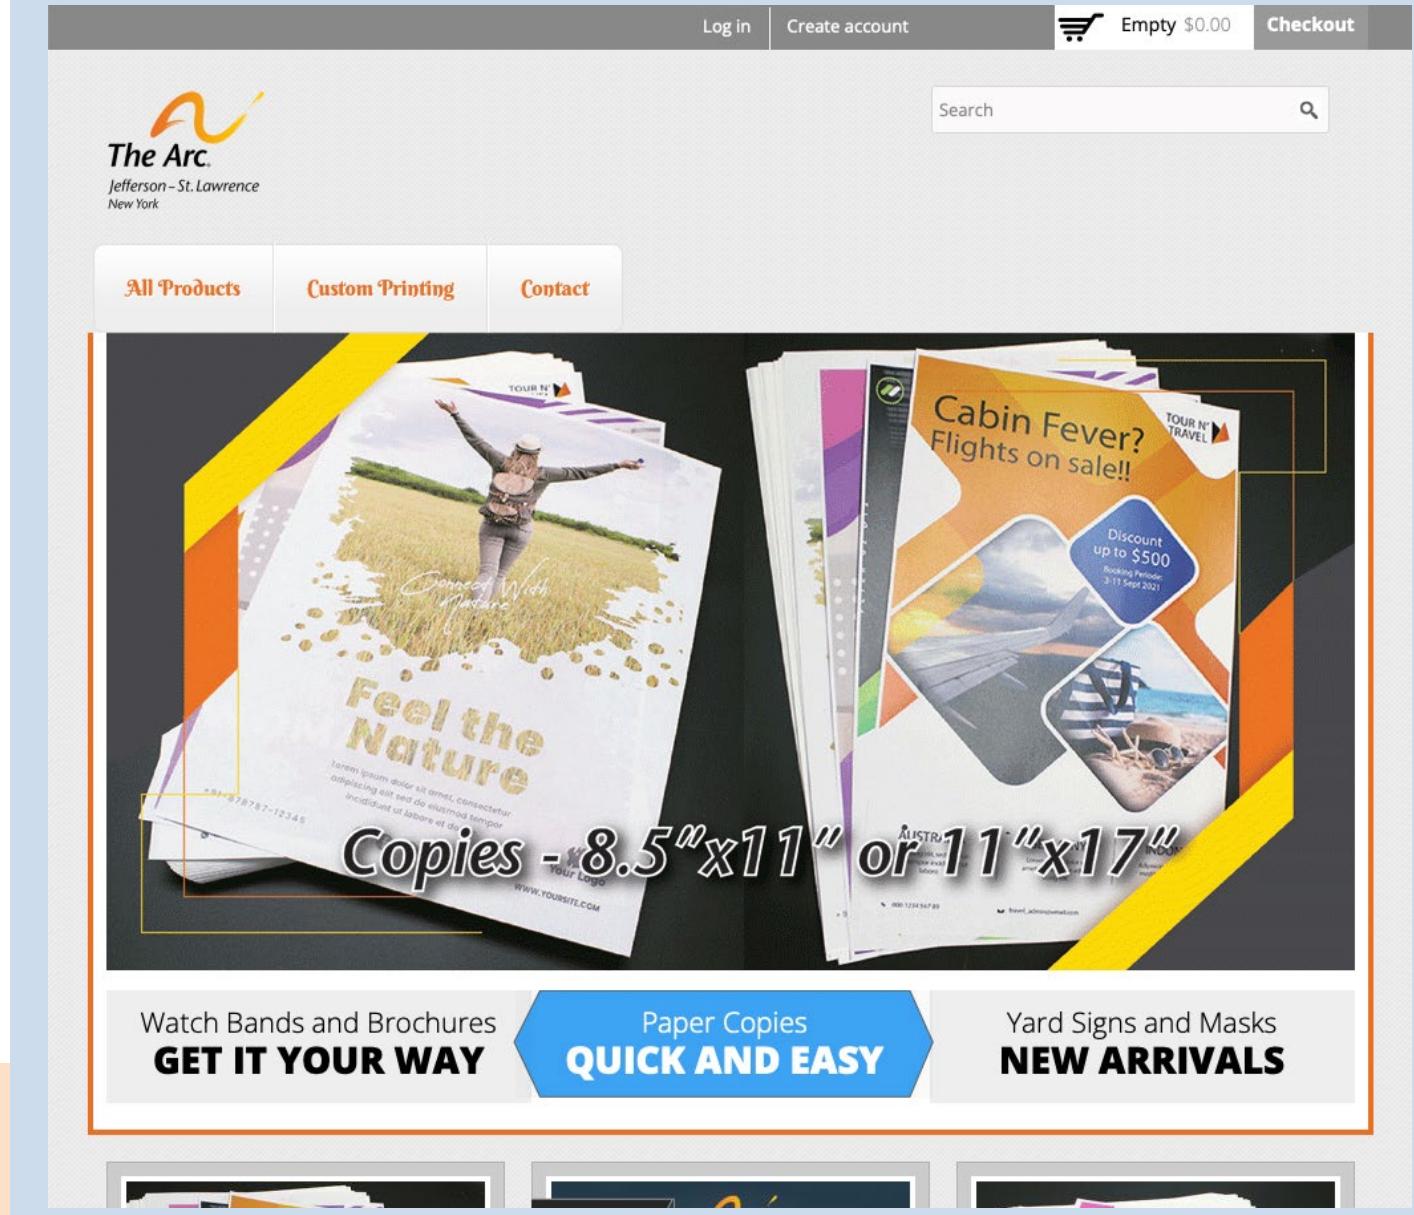

The W8 website is an eCommerce website for restaurant reservations built with WordPress and WooCommerce. The customers visit the restaurant waitlist page by scanning the QR code. They can fill out the form to join the regular waitlist or purchase a FastPass to go faster. The features include QR code, webforms, front-end table, shipping cart, credit card payment gateway, SMS and Email notifications, etc.

E-Commerce Website Example

www.shopthearcjslc.org

(The online store paused because of a shortage of workers.)

Custom Printing website is built with Drupal 7 Commerce Kickstart. I created the website www.shopthearcjslc.org all by myself, even the draft of policies. I learned making an eCommerce site as a PCI Compliance for Credit Card Payment Security. More features are full-featured on-line store system, customer membership system, and email notification system.

A search bar is also present. The main content area features a large image of the church building and a green banner with the text "Summer Worship". Below this, there's a "Welcome home!" section and a "Support The Church" button. To the right, there's a box with details about services and a "Come join us!" call-to-action. The bottom of the page includes a "Site Menu" with links to YouTube Channel, Sunday's Bulletin, Sunday Zoom Meeting, Written Sermons, Newsletter, Photo Galleries, Pastor's Report, Committees and Officers, Staff, Birthdays, Anniversaries, Calendar, Mission and Outreach, Lectionary Readings, Grace of the Month, Groups and Activities, Audio Sermon Archive, Sunday School Child Registration, Support the Church, FAQ, Christmas Countdown, Links, and Contact Us. Social media icons for Facebook, YouTube, and RSS are at the bottom.

The site is created and developed by Drupal 9 with a custom sub-theme of Barrio Bootstrap 5 base theme. More regions are added in the sub-theme to make the layouts more flexible. Lots of features: Responsive design, drop-down main menu, custom size slideshow, HTML Email Newsletters, calendar with different color for event catalogs, image gallery, count-down event, spam-off contact form, etc.
